Hard water solutions since 1973

## Case Study

Ayush Kasliwal Designing Pvt. Ltd.

Ayush Kasliwal Furniture Designing (AKFD) Studio

- **MAGCAT-3/4" (22mm) -01 Unit at Factory,**
- **LIMETRON-3/4" (22mm) -01 Unit at Residence.**

### THE CUSTOMER

AYUSH KASLIWAL DESIGNING PVT. LTD., F-677 & 678, RIICO INDUSTRIAL AREA, SITAPURA, JAIPUR, RAJASTHAN, INDIA.

A well known MNC organization in furniture designing of Jaipur (-) India.

Residence : B6/A1, Prithviraj Road, C-Scheme, Jaipur.

### THE PROBLEM

Since long they were facing problems of rough tuff hairs, soap and shampoo not forming lather properly, garden greenery was not proper and serious scaling problem in their bathroom fittings, shower heads, water taps, wash basins, fish aquarium and at floor tiles at their residence and chocking in pipe lines and honey pad type coolers completely chocked at their factory.

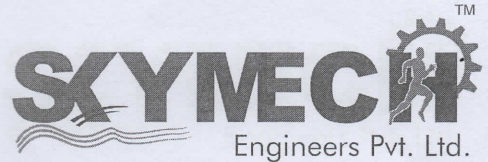

### THE SOLUTION

We visited the property both factory and residence and inspected all related points/fittings suffering from scale and discussed their problems and convinced them that after installing MAGCAT device at factory and LIMETRON device at residence they won't have scaling problem and also get relief from their other problems and the old scales will also be cleared slowly.

**Fluid Dynamics**

Hard water solutions since 1973

We offered them one year money-back guarantee and ten years warranty on pro-rata basis & requested them to give us a chance to prove "How good is our equipment MAGCAT and LIMETRON?".

We booked the order and installed first unit LIMETRON-3/4"(22mm) at residence on April 10, 2015 according to their choice to see the results first and then on approval installed the second unit MAGCAT-3/4" (22mm) in line on June 13, 2015 at factory.

### **THE RESULT**

Both the units are working affectively and they are very happy after installing LIMETRON unit at residence and MAGCAT unit at factory. Now both residence as well as factory is safe and in their original look with all their points/bathroom fittings wherever the water is used/ consumed. Also it has started removing old existing scale too. Additional to above, it will add life to all related fittings/points in days/years to come.

### **THE CERTIFICATION**

Results have been acknowledged by Mr. Ayush Kasliwal, Managing Director of the organization as on date June 08, 2016 at both the places Residence as well as Factory.
