

## Quick-Fit Pipe Couplings From Fluid Dynamics

- » Reduce Installation cost
- » Faster installation
- » No specialist tools required
- » Suitable for all pipe work materials
- » Universal application

# Universal Applications

## SUITABLE FOR ALL POPULAR MATERIALS:

- » PVC
- » UPVC
- » stainless steel
- » Steel
- » GRP
- » cast Iron
- » Asbestos Cement

**Wide range of sizes (from 1.25inch nominal pipe size) up to any size.**

**Wide range of tolerances, can connect pipes of different diameter and different materials**

**Suitable for out of round pipe**

**Can handle a pressure rating between 10-16 bar.**

**Suitable for drinking water systems (WRAS & DWI approved)**

# Specializing in large pipe connection

One of the benefits of Quick-Fit couplings is the speed and reduced cost of installation, especially in large piping systems.

- » No Welding required
- » No Re-rounding required
- » No heating blankets or soak time
- » No generators required
- » No additional fittings, gaskets, bolts or nuts required

# How to order

SUITABLE FOR:

**Colloid-A-Tron**

**MagCat**

**Scaleton**

- » Specify Quick-Fit Couplings on your next order!
- » Just supply the outside diameter of the pipe you are connecting to.
- » No additional cost on sizes 2.5” and above
- » Further information contact Fluid Dynamics
